

Laminar Jet (with LED light)

Description - Same as the jumping jet but without the cutting mechanism. Produces a clear laminar stream of water that resembles a glass rod when seen closely. The internally placed LED light creates a highly attractive effect at night.

Sizes - Available in 10mm bore size with a max throw of 2.5m length by 1.25m height

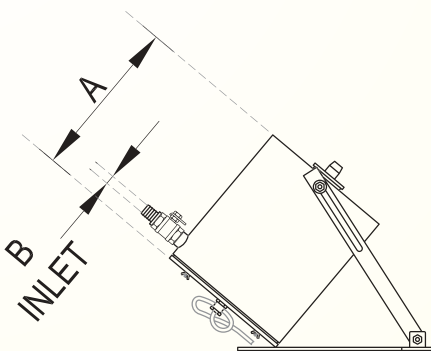

MOC - SS, Machined Brass & Cast Bronze.

Custom - All Programmable water features are custom designed.

Type - To be installed in a specially designed pit with water level below the nozzle.
