

Rain Curtain

Description - Same as the water curtain except the water falls free and not along strings. Needs a larger basin due to the splash created by the free falling water.

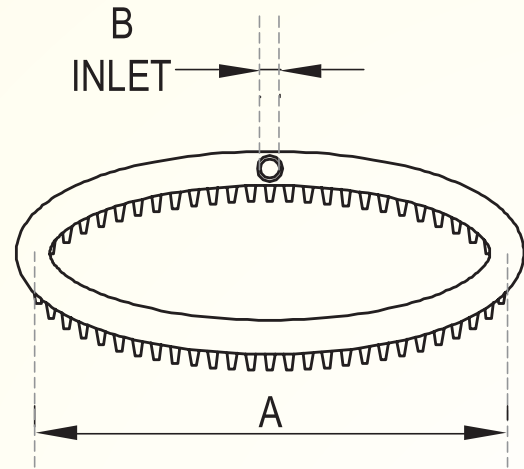

High level of sound created by the falling water.

Sizes - Available in a wide variety of ring diameters.

MOC - GI / SS pipe ring with Machined brass nozzles.

Custom - Rain Curtains can be customized for various sizes (circular or straight line) and number of nozzles.

Type - Installed in a way that the water flows down free from the ring to the pool.
